UNIVERSAL SPIN ADAPTER USA&JAG

FOR MUZZLELOADERS

USA&JAG - Universal Spin Adapter & Jag

Innovative design allows ANY jag with 10-32 threads to spin freely for more precise loading and cleaning

The **Universal Spin Adapter (USA)** allows the jag to spin freely while following the rifling grooves for easier and more precise loading and cleaning.

The kit includes our 10-32 jag. Designed with a concave tip to load polymer-tipped bullets, this jag also has a knurled end to grip a cleaning patch. Or use your favorite 10-32 jag on the **Universal Spin Adapter**. The kit also includes a **bushing** to protect the muzzle and keep the ramrod aligned straight for precise loading and cleaning.

Buy your USA&JAG today!

Made in the USA

How The USA&JAG Works

Mount the bushing, the **Universal Spin Adapter** and a jag onto your 10-32 cleaning rod.

Insert the tool into the bore. The **bushing** will keep the rod aligned.

The **Universal Spin Adapter** allows the jag to spin freely while following the rifling grooves for easier and more precise loading and cleaning.

Use our included jag or your own favorite jag for loading and cleaning. The **Universal Spin Adapter** will allow the jag to spin freely.
